

## **Environmental Health and Safety Professional**

We are looking for a sharp Environmental Health and Safety Professional to join our team. We are a growing, highly respected environmental consulting firm based out of Southern California. We work on a wide variety of environmental Air, Water, Waste, Health, and Safety Permitting and Compliance projects, across a diverse range of California industries and locations.

We offer a friendly, high performance, team-oriented work environment where professionals can grow amongst their respective peers. This is a fantastic opportunity for someone looking to expand their professional development in a challenging yet rewarding environment.

### **Position Summary:**

The Environmental Health and Safety Professional reviews, evaluates, and analyzes work environments and is responsible for designing policies and procedures to ensure adherence to regulations on safety, health, and the environment. They will also design programs to prevent disease or injury to workers and damage to the environment. This candidate will be analyzing regulatory required compliance and technical issues, and communicating those analyses with clients, peers, and with regulatory agencies; performs other duties as required or assigned.

This is an experienced senior level position working under general supervision. Positions at this level are assigned to perform the more complex and sensitive duties in the occupational field. As an Environmental Health and Safety Professional, you will also help to provide staff mentorship and training, and peer review for junior-level staff.

### ***The candidate qualifications we are looking for include:***
