

California Waste and Water Environmental Regulations: Permitting, Compliance, and Reporting Online Seminar

Course Description

This course is designed for industry and government professionals as an overview of the key water, waste, and hazardous materials environmental regulations that apply to California businesses. The course will introduce key permitting, compliance, and reporting requirements and present practical compliance examples.

This course will be held online in four 4-hour classes.

Instructor Information: Geoff Knight, CPEA, ToR, QISP; E-mail: GKnight@YorkeEngr.com

Geoffrey Knight is a Principal Scientist at Yorke Engineering, LLC, and has extensive multi-media environmental permitting and compliance experience within industry and government. Over a 25+ year career, Mr. Knight has performed hundreds of compliance projects in California and across the U.S., including developing plans and permits, performing compliance audits, and developing environmental, health, and safety compliance management systems.
