Sr. Industrial Hygiene and Safety Specialist

Join Yorke Engineering, LLC, an Environmental Consulting leader in California that implements Environmental Engineering and Compliance solutions for our clients throughout California. Our mission is to solve environmental compliance problems for industrial and governmental/infrastructure facilities. We are a growing and dynamic organization of highly respected professionals. Yorke Engineering, LLC has assisted over 2,000 client organizations with their Air Quality and Environmental Compliance, Engineering, and Permitting needs. Our philosophy is to efficiently help government and industrial customers with the complex array of environmental laws and regulations. From simple permits to complex agency negotiations, from small companies to the largest of California's organizations, Yorke successfully solves our clients' Air Quality and Environmental challenges. Our team has over 1,000 years of combined environmental experience and consists of engineers and scientists that specialize in Air Quality, Waste, Water, CEQA, Safety, and Industrial Hygiene.

We are looking for a sharp **Sr. Industrial Hygiene and Safety Specialist** to join our Northern Ca team (San Francisco, Berkeley) during regular business hours. This is a full-time position at 40 hours per week during our normal business hours. We offer competitive salaries, a full benefits package including Paid Time Off, Holidays, Full Medical/Dental/Vision, along with a 401k program with a generous company match.

We offer a friendly, high performance, team-oriented work environment where professionals can grow amongst their respective peers. This is a fantastic opportunity for someone looking to expand their professional development in a challenging yet rewarding environment.

Position Summary:

The **Sr**. **Industrial Hygiene and Safety Specialist** reviews, evaluates, and analyzes work environments and is responsible for designing policies and procedures to ensure adherence to regulations on workplace safety, health, and the environment. They will also design programs to prevent disease or injury to workers and damage to the environment and provide training to clients. This candidate will be analyzing regulatory required compliance and technical issues, communicating those analyses within Yorke, with clients, and with regulatory agencies, providing project management leadership and support to project teams, and performs other duties as required or assigned.

This is an experienced level position working under general supervision. Positions at this level are assigned to perform the more complex and sensitive duties in the occupational field.

The candidate qualifications we are looking for include:

- 10+ years of experience as a Safety Specialist, Industrial Hygienist, or EHS Specialist preferably in a consulting environment;
- Ability to work in an organized team fashion with a track record of strong written and verbal communication to develop schedules and task requirements, uphold quality standards, and drive the team towards project completion;

- Analyzes and ensures regulatory compliance as they relate to workplace health, safety, and environmental policies for our clients, this includes local, state and federal level regulations;
- Ability to perform safety, environmental, or occupational health inspections for compliance with established policies to identify potential new hazards;
- Familiarity with various monitoring and sampling methods, procedures, and techniques used in collecting and testing related to air, dust, odor, and noise monitoring;
- Experience in developing and supporting an efficient EH&S Management System on behalf of clients' sites;
- Experience with different facets of IH and EH&S services such as:
  - Job Hazard Analyses;
  - Personal Protective Equipment;
  - OSHA Regulations;
  - ISO 140001;
  - Industrial Hygiene Monitoring and Reporting;
  - Ergonomics Evaluations and Reporting;
  - Experience in Lockout/Tagout (LOTO);
  - Illness and Injury Prevention Plans (IIPP);
  - Training on new regulations;
- Extensive experience with process, manufacturing, and/or other industrial facilities;
- Ability to manage multiple clients at any given time without losing focus of quality;
- Experience in dealing with regulatory agencies.

Job Requirements:

- B.S. degree or higher in Public Health and Safety, Occupational Health and Safety, Environmental Science, Chemistry or any other relevant degree from an accredited university (minimum GPA of 3.0);
- Project Management experience and/or experience in supporting project teams;
- Well-developed technical expertise in Health & Safety rules and regulations;
- Experience with other environmental services related to air quality and multimedia compliance;
- Excellent verbal and written communication;
